ABOUT US

Legacy Assurance is a company committed to reducing the financial and emotional stress of planning a funeral at the time of need. We do this by offering to our members our WISH TEAM and, where available, funeral merchandise that is priced well below the national average of what funeral homes charge.*

WISH TEAM

With this service, our experienced team will gather pricing information from funeral homes in your area. We will then aid in negotiating those prices to make sure that you and your loved ones are getting the best funeral price available.

PRODUCTS

We offer a variety of products, from some of the most popular casket designs on the market to customized monuments. Your loved ones can even use an assignment from your life insurance benefit to help pay for the merchandise at the time of need. The Federal Trade Commission requires that all funeral homes accept any casket purchased from a third party or outside source, including Legacy Assurance, without charging an additional fee for doing so. Please check with your Legacy Assurance Representative for more details.
